

## Nathaniel Project- Coming Soon Trailer

- [Narrator] He was diagnosed with schizophrenia as a teenager. Arrested 19 times for attempted burglary, possession of stolen property, criminal trespass and narcotics possession. He was trapped.

- Jail is an incredibly traumatizing, destabilizing experience for our clients. When you send somebody to jail who lives with mental illness, who struggles with a substance use disorder, a neurocognitive intellectual disability, and you're taking them away from their communities, families, their education, jobs, children, their sense of self-worth, they come out a lot worse.

- [Woman] We're saying to the judge, release this person to us. Our team and our services can really help this person to improve their lives. And the outcomes are just much better in terms of recidivism.
